

Shalvin Shaji

Data Engineer

+91 9072723987 | shalvinshaji283@gmail.com | linkedin.com/in/shalvinshaji

Professional Summary

AWS Data Engineer skilled in designing scalable data pipelines using PySpark, ETL development, and workflow orchestration. Proficient in full-lifecycle database migrations (CDC) and data analytics with Redshift and Aurora PostgreSQL. Expertise in data modeling and automated pipeline monitoring.

Technologies

AWS Services: Glue, S3, Lambda, DMS, RDS, Redshift, DynamoDB

Programming & Frameworks: Python, PySpark, SQL

Databases: Aurora PostgreSQL

Data Engineering: ETL, CDC, Data Modeling, Data Quality Validation

Workflow Orchestration: Apache Airflow

Security & Monitoring: IAM, Secrets Manager, CloudWatch

Version Control: Git, GitHub

Experience

Tata Consultancy Services, Kochi

Sep 2022 – Present

Data Engineer

- Designed and developed scalable ETL pipelines in alignment with approved TSAs using **AWS Glue, PySpark, and Python**, automated and orchestrated through **Apache Airflow** to ensure reliable, end-to-end data ingestion and transformation into **Amazon S3** and **Redshift**.
- Led full lifecycle database migrations from on-premises **Oracle/MS SQL Server** to **AWS Aurora PostgreSQL** using **DMS**, implementing **CDC** to capture ongoing changes and ensure minimal downtime during cutover.
- Designed **Amazon Redshift** schemas and tables for quarterly data storage, leveraging effective **data modeling** and **partitioning strategies** to enhance performance and scalability.
- Developed **Python-based data validation frameworks** to automate reconciliation of record counts, schema integrity, and data accuracy between source and target systems.
- Developed multiple **Python-based batch jobs** to maintain real-time synchronization with **AWS Aurora PostgreSQL** for auditing and compliance, and automated email notifications to report vulnerabilities.
- Refactored legacy **SQL/PL/SQL** procedures to be compatible with **PostgreSQL PL/pgSQL**, improving performance and reducing migration effort by **40%**.
- Collaborated with cross-functional teams to define **TSA-based data flow strategies**, optimizing resource usage and **AWS cost efficiency**.
- Created detailed **migration runbooks** and process documentation to streamline repeatable migration projects and accelerate team onboarding.

Education

B.Tech in Computer Science and Engineering,

2018 - 2022

Royal College of Engineering & Technology, CGPA: 9.05 / 10

12th Grade, G.H.S.S Pattikkad, Kerala

2016 - 2017

10th Grade, G.H.S.S Pattikkad, Kerala

2014 - 2015

Certifications

- AWS Certified Developer Associate
- AWS Certified Cloud Practitioner
